linked to the specific chapters in that volume there is also a subject index at the end of the volume which is not linked but nonetheless it gives the
book and chapter in which the subject can be found as well as the original page number of the printed edition henry charles lea s history of the
medieval inquisition pulls from primary sources so as to give an accurate account of the catholic church s judicial system known as the inquisition
as he explores the events of the twelfth century which later become known as the dreaded inquisition he breaks the subjects down into three
categories in the first volume he looks at the medieval concepts and of the relationships between individuals and the church in volume two he
looks at the placement of the inquisitions throughout europe and the state of different religious conditions within the languedoc region he shows
how that in italy and france there was a continual resistance to the inquisition in the third and final volume lea studied the impact of the inquisition
on scholarship and academic life and on faith and society as a whole he also shows how that the belief in sorcery and witchcraft in the fourteenth
and fifteenth centuries was a product of the catholic inquisition and how that the church authorities were feeding its growth through these orders of
the franciscans and the fraticelli they gained their prominence throughout these three books he deals with religious groups such as the cathari the
albigensian the hussites as well as looking at the albigensian crusades and its impact overview of the table of contents volume 1 origin and

A History of the Inquisition of Spain - Volume I 2016-09-22 the history of the inquisition naturally divides itself into two portions each of which may
be considered as a whole the reformation is the boundary line between them except in spain where the new inquisition was founded by ferdinand
and isabella in the present work i have sought to present an impartial account of the institution as it existed during the earlier period for the second
portion i have made large collections of material through which i hope in due time to continue the history to its end the inquisition was not an
organization arbitrarily devised and imposed upon the judicial system of christendom by the ambition or fanaticism of the church it was rather a
natural one may almost say an inevitable evolution of the forces at work in the thirteenth century and no one can rightly appreciate the process of
its development and the results of its activity without a somewhat minute consideration of the factors controlling the minds and souls of men during
the ages which laid the foundation of modern civilization to accomplish this it has been necessary to pass in review nearly all the spiritual and
intellectual movements of the middle ages and to glance at the condition of society in certain of its phases at the commencement of my historical
studies i speedily became convinced that the surest basis of investigation for a given period lay in an examination of its jurisprudence which
presents without disguise its aspirations and the means regarded as best adapted for their realization i have accordingly devoted much space to the origin and development of the inquisitorial process feeling convinced that in this manner only can we understand the operations of the holy office and the influence which it exercised on successive generations by the application of the results thus obtained it has seemed to me that many points which have been misunderstood or imperfectly appreciated can be elucidated if in this i have occasionally been led to conclusions differing from those currently accepted i beg the reader to believe that the views presented have not been hastily formed but that they are the outcome of a conscientious survey of all the original sources accessible to me no serious historical work is worth the writing or the reading unless it conveys a moral but to be useful the moral must develop itself in the mind of the reader without being obtruded upon him especially is this the case in a history treating of a subject which has called forth the fiercest passions of man arousing alternately his highest and his basest impulses i have not paused to moralize but i have missed my aim if the events narrated are not so presented as to teach their appropriate lesson
