Identity theft is at an all time high in one notorious case a criminal racked up more than 100,000 of debt in the name of his victim the thief bought homes motorcycles and handguns in the victim's name the victim and his wife spent more than four years and 15,000 to clear his name money credit and even lives are at stake when an identity is stolen yet many people don't know what legal protections exist you need to learn what to do when your name credit card number or other information gets into the wrong hands security expert david holtzman offers you clear concise advice on how to reduce the chances of fraud and what steps victims need to take to reclaim their lives an extensive resource list offers tools to draw up a plan to rebuild credit and reputation thieves are roaming the internet but with this essential guide their victims can even the score.

**American Psychic & Medium Magazine. Economy edition. 2006**

The early accounts of one of the most famous scenes in christian history the death of peter do not present a single narrative of the events for they do not agree on why peter requested to die in the precise way that he allegedly did over time historians and theologians have tended to smooth over these rough edges creating the impression that the ancient sources all line up in a certain direction this impression however misrepresents the evidence the reason for peter's inverted crucifixion is not the only detail on which the sources diverge in fact such disagreement can be seen concerning nearly every major narrative point in the martyrdom accounts of peter and paul the many deaths of peter and paul shows that the process of smoothing over differences in order to create a master narrative about the deaths of peter and paul has distorted the evidence this process of distortion not only blinds us to differences in perspective among the various authors but also discourages us from digging deeper into the contexts of those authors to explore why they told the stories of the apostolic deaths differently in their contexts david l eastman demonstrates that there was never a single unopposed narrative about the deaths of peter and paul instead stories were products of social memory told and re told in order to serve the purposes of their authors and their communities the history of the
writing of the many deaths of peter and paul is one of contextualized variety

Yankee Magazine's Practical Pet Solutions 2010-01-05

as long as we live the future is coming to pass there it is a promise or a specter to one man it brings joy and the realization of his dreams to another tragedy all your life you have seen such futures happening years ago some intimate of yours gave evidence of splendid possibilities now he is a broken man sick and discredited an acquaintance you believed had little promise is wealthy and revered how did it happen no question is more important than this none upon which you and i need more light here we are working at our tasks trying to save a little money giving what love we have to our intimates and hoping always hoping for a better tomorrow but suppose we are working saving struggling to no avail we need to do something about tomorrow now what if we discover years from now that ignorance of certain laws and the neglect of important methods compromised our efforts and left us disappointed that is our fear you can't build the future in the future you can only plan for it by constructive programs and positive actions today there is now something for you to take and something for you to give your giving may be only a courteous attention to another man's ideas but that is something in fact much when this act of giving and taking is wisely repeated you learn not only that you can produce a constantly unfolding life but how which is to some point we must be ready to meet the ever changing scene surely this has always been true does not the art of planning one's future begin with alert interest in how to overcome the obstacles of today tomorrow is new new ways are necessary in the now if we are to be ready for the time to come suppose instead of living in this century you were a primitive man trying to lift a massive stone tearing your bleeding fingers suppose someone came along with a crowbar crying here i've a lever i'll pry the rock out for you what would you do go on
tugging or stand back and let him use his bar if you saw him accomplish the task with ease would you let the man go away leaving you to struggle with other rocks or would you ask him how such levers work suppose that then after you had learned all about this easier way of moving rocks you discovered this stranger used other methods new to you he could move things around on what he called wheels he knew how to harness a waterfall and make it work for you he could hollow out a log so that in it you could travel with ease on the water wouldn t you become a little excited and want to find out more of what he knew i have been excited a good many years now over what seems to me a most amazing fact the discovery of how to control matter to make physical life easier came to mankind slowly insight into how a like transformation may take place in a man s handling of his own life has come in one generation most people are not yet aware of it few realize what has been happening for millions are toiling greedily and fighting bitterly everywhere they know that science and mechanics have made over the face of the earth they do not know that psychology and its sister sciences are making a like change for man s handling of his own nature
