well as the injury ronald reagan received in the assassination attempt upon him have revealed our woefully inadequate system for handling presidential incapacity the authors believe that this flawed system poses a major threat to the nation and they provide sobering reports on how the government functioned or failed to function during times of presidential impairment the public was kept in the dark regarding the gravity of the presidential condition often unaware that critical decisions were being made while the president was suffering from a severe illness hidden illness in the white house contains startling new information on the severity of roosevelt s illness during the crucial yalta negotiations and the fact that kennedy suffered from addison s disease a life threatening illness long before he was elected to the presidency in each case the authors demonstrate that a largely successful effort was made to conceal the president s true medical condition from the public it is a story of the relationship between power and place in american culture book jacket ten presidents from benjamin harriss on to franklin d roosevelt discusses his experiences as a white house news correspondent for over twenty years this is the combined biography of two domestic servants a mother and her daughter each of whom worked for thirty years in the white house in 1909 he mother was hired by president taft who was the first president ever to allow a black person to enter the white house she worked in the white house until 1939 her daughter was hired by president hoover in 1929 and she worked there until the final days of the eisenhower administration in 1959 this book should be required reading for every serious student of american history the authors were eye witnesses to some of the great events of history and offer different perspectives from that found elsewhere for example we learn that when calvin coolidge announced in 1927 that he did not intend to run for re election he was playing hard to get he believed that the people would insist that he accept a third term of office he expected to be drafted he actually wanted a third term in office coolidge was disappointed when herbert hoover was nominated as he disagreed with hoover s ideas and policies we learn that in the last year and a half of the presidency of president woodrow wilson he had to be wheeled around the white house in a wheel chair and was often engaged in sickbed rambling when franklin d roosevelt took office as president he was an invalid confined to a wheelchair few americans knew this and elaborate means were devised to make it appear that roosevelt was robust and healthy whenever he was to speak railings were created beside where he was to be standing this was done so that it would appear that for was walking taking a few steps up to the speaker s podium when in reality the handrails were holding him up and he was dragging his feet a short distance to create the illusion that he was walking also roosevelt was dependent on his mother sara delano who had all the money and controlled his finances considers s j res 117 to call a white house conference on aging in dinners for heads of state from around the world an ordinary day might include breakfast with tom hanks lunch with michael douglas robin williams or dr ruth tea with the queen of sweden and dinner seated next to the president of the united states one moment she is greeting the elegant former queen of greece and the next the grateful dead and that was a normal day in the clinton white house this memoir is a funny surprising and candid look backstage in america s house where fabulous things happen every day and the teeeniest mistake may show up on the front page of the nytimes or washington post so imagine how good at it you d have to be to keep a job like that for all eight years the white house is the world s most famous house but it s still a mystery to most people melinda bates
