working practices between the UK and Welsh Assembly Governments in relation to cross border policies appear much improved since the committee’s earlier reports on this subject but a number of outstanding issues remain in transport, health, and further and higher education. On transport, the committee welcomes the planned electrification of the Great Western Main Line but the Department for Transport appears to have washed its hands of any strategic responsibility for cross-border roads. The A483 is the clearest example of a road vital for travel within Wales but which is not important to the English region in which it is located and as a result loses out on funding. The committee stresses the need for comparative data on which to build solid research comparing NHS performance in the devolved nations. More needs to be done to raise public awareness of the differences in services people can expect to receive on both sides of the border. Transparency of information is vital research proposals in the UK Government’s Higher Ambitions Strategy for Higher Education make no reference to nations other than England despite the UK-wide research remit of the Department for Business, Innovation and Skills. The committee calls for details about how research funding proposals apply to all four nations.

technology deregulation, privatisation, globalisation. No financial service business is immune to these forces as they feed on each other in a whirlwind of change. These changes will require a revolution in the way all organizations are managed, demanding new competitive strategies, alliances and mergers. Business intelligence, risk management, quick responses, driving strategic change in financial services outlines the important trends and political decisions which have transformed the financial services industry. It examines how organizations are responding to the new industry models by implementing new strategies, new structures, and new management systems. Five senior executives describe how they have each helped to create and implement a practical vision for their organizations.
